

CERTIFICATE OF TRAINING

Anna G. RAZUMNAYA, senior assistant of the Department of Nanotechnology at the Southern Federal University, has successfully completed the education training at the Faculty of Science, University of Picardy, Amiens, France during the period from 1st of June to 11th of July 2015.

The objective of the education training was to provide the aim, the structure and the content of the Master course «Nanostructured Materials, Surfaces and Interfaces» running at the University of Picardy.

She became familiar with the following topics:

- organization and management of Master's training program in Physics at the University of Picardy;
- programs of the courses and assessment procedures;
- credit framework and credit-based modular structure of the training program;
- academic and methodical support of the research internship;
- course evaluation and feedback from students;
- group-projects and individual and research projects;
- Master thesis, preparation and defense.

The skills and knowledge acquired during the education training are sufficient to develop the double-diploma master course in Physics between the University of Picardy and the Southern Federal University of Russia.
